SEC. 10.0 REVERSE COURSE

- 10.1** In Quadrangle and Figure 8 Stake, riders may begin the course from either end of the arena. Rides that are started from the end of the arena opposite from the entrance gate shall be known as "Reverse Course."
- 10.1.1** Upon entering the arena, any rider who desires to "Reverse Course" must raise their hand and be acknowledged by the judge.
- 10.1.2** The combination shall enter the gate, proceed along the fence past the imaginary start/finish line, break forward motion and then begin the course.
- 10.1.3** After the combination "On Course" has been excused by the judge, if the next combination is going to reverse course, the combination may enter the arena and proceed toward their starting position.
- 10.1.3.1** The rider may not start the course until the previous combination has exited the arena and the gate has been closed.
- 10.1.3.2** After verifying the gate has been closed, the rider must begin the course within the time limit specified in rule 9.3.
- 10.2** When entering or exiting the arena the combination must proceed along the fence line outside of the course.
- 10.3** In a Reverse Course event, if an obstacle is knocked down by the horse/rider combination or weather conditions prior to the combination crossing the start/finish line to begin the course the combination must wait for the course to be set. It is permissible for the combination to exit the arena and re-enter after the course has been set.

SEC. 11.0 TIMING

- 11.1** Time shall start when any part of the horse crosses the start line and shall end when any part of the horse crosses the finish line upon completion of the course, or when disqualified by the judge.
- 11.1.1** A combination shall be considered "On Course" once any part of the horse crosses the start line and until every part of the horse crosses the finish line after completing the course.
- 11.2** The position of the timers shall always be at the start/finish line.
- 11.3** Time shall be taken by the use of an electronic timer, or three manual stopwatches all of which are graduated to at least 1/100th of a second.
- 11.3.1** The official time shall be taken from either the electronic timer or from two of the three manual watches, if two have identical times. If all three manual watches vary the middle watch shall be official.
- 11.3.2** An electronic timer is preferable, and where one is available is to be used at the SCS.

11.4 Show management may elect to use a backup timer. In the event of a failure of the main electronic timer the time shall be the backup time.

11.5 All times shall be recorded, including times from disqualified rides. Times from disqualified rides shall be made available, but not announced.

11.5.1 For disqualified rides that are "Off Course" the timekeeper must enter an "OC" in the placing box on the time sheet.

11.5.2 For rides that are disqualified for any other reason the timekeeper must enter a "DQ" in the placing box on the time sheet.

11.6 Timer Malfunction

If there is a timer malfunction, and a backup time is not available, the combination shall be given a re-ride.

11.6.1 If the first run was clean (no downed obstacles) and the second run is not, the rider shall be given the option of a third and final run.

11.6.2 If the first run was clean: the penalty, if any, and the time shall be from the final run.

11.6.3 If the first run was not clean: the penalty shall be from the run with the most downed obstacles.

Example: If the first run was not clean, and the second and/or third run is clean the penalty from the first ride shall be added to the final run's time.

11.6.4 In all cases, the time shall be from the final run made.

11.6.5 **If the first run was ruled "Off Course" there shall be no additional runs.** Only if the first run was disqualified for an infraction other than "Off Course", will the second and/or third run be for time only.

11.6.6 If the first run qualified and the second run was disqualified due to "off course" the combination shall be given a third ride.

11.6.7 If the second ride is disqualified for any other reason there shall be no third ride.

SEC. 12.0 PLACINGS

12.1 Show placings are based on the "Actual Time", not the Base Time.

12.2 In the case of a tie for an event placement all combinations shall be awarded the same placing and points. The subsequent number of placings shall not be awarded

Example: Three combinations tie for first place. All three receive first place points. No second or third place points are awarded. The next combination receives fourth place points.

12.2.1 Distribution of the event awards shall be at the discretion of show management.

12.3 Breaking a Show High Point Tie

In the event of a tie for a show's high point award the tie shall be broken using the following procedure:

12.3.1 When all combinations involved competed in all of the events:

12.3.1.1 If any combination involved in the tie was disqualified, in one or more events, the award shall be given to the combination that had no disqualifications.

12.3.1.2 If there were no disqualifications, the tie shall be broken by combining the actual time ran in each event. The combination with the lowest overall time shall be declared the high point winner.

12.3.1.3 If all of the combinations involved were disqualified, in one or more events, the tie shall be broken by combining the time from those events in which none of the involved combinations were disqualified.

Example:

Sue and Jim tied for 1st place. Both were disqualified in one event.

Sue disqualified in Quadrangle and Jim disqualified in Birangle. Only the times from the shows remaining events would be added for total time. Quadrangle and Birangle would be omitted from both competitors total time.

12.3.2 When a combination involved did not compete in all of the events:

12.3.2.1 The combination that did not compete in all of the events shall relinquish the award for the tied position and accept the award for the next lower placing.

12.4 Single Entry Division – Placing Charts

The following time charts shall be used to determine the event placing of all single combination divisions.

Overall placing for a single combination division shall be based on a percentage of the total points possible (number of events times first place points):

80%	High Point
70%	Reserve High Point
60%	3rd
50%	4th
less than 50%	5th

HOW TO READ AND USE THE SINGLE ENTRY PLACING CHARTS

Actual times that are equal to or faster (lower) than those listed under 1st place will be awarded 1st place.

Actual times slower (higher) than a time listed for a placing, and equal to or faster (lower) than the actual time listed for the next placing will be awarded the lower placing.

Actual times equal to or slower (higher) than those listed under 3rd place will be awarded 4th place.

These placing times have no direct or indirect relation to the times used for ratings.

Example: Division 1 Big T

A run of 18.999 would be awarded 3rd place because the time is between the 2nd and 3rd place breaks.

15.3.1.1 There is no limit as to the number of times an individual may qualify for and/or win a CSHA Championship.

15.3.2 A rider may compete in both the Rated and Open division.

15.3.3 In addition, to compete in a Rated division a combination must also meet the following criteria. These criteria are the state's minimum requirements. Regions are allowed to have more stringent requirements. A combination must first meet all of their Region's requirements.

15.3.3.1 Be registered in a Region Gymkhana program.

15.3.3.1.1 A Region Registered Combination is defined as a combination that has filled out a Region's Gymkhana program registration form and paid any and all registration fees set by the Region. The Region registration form must inform the rider of the CSHA membership requirement.

15.3.3.1.2 At the time of registration if the participant is not a current CSHA member an application for either CSHA direct or club membership **MUST** be completed and appropriate dues paid.

15.3.3.1.3 A participant may register at any time prior to **September 1st**. The Region registration form and the CSHA or CSHA club membership forms must be available at all Region Approved Point Shows.

- 15.3.3.1.4** If a rider's Region does not have a Gymkhana program, the rider shall contact the State Gymkhana Chairman for information regarding registration in another Region's program. The State Chairman must contact the President of each involved Region to obtain approval of the request.
- 15.3.3.1.5** A rider can only register and qualify in one Region Gymkhana program. A club member may register in the Gymkhana program sponsored by the Region in which his club is based regardless of where the member actually lives. For SCS purposes only, the rider will be considered a member of the Region in whose program the rider was registered.
- 15.3.3.1.6** Out of state members wishing to participate in this program should review Bylaws and Administrative Practices for appropriate procedure.
- 15.3.3.2** After December 31st and on or before September 15th of the following year, the combination must compete in all rating events in a minimum of five (5) of their Region's Approved Point Shows. Shows ridden prior to Region Registration may NOT be used to meet the five (5) show requirement.
- 15.3.3.2.1** After a combination has competed in their first event, if the horse or rider becomes injured or too ill to continue the rider may petition the Region Chairman for a one-time waiver of rule 15.3.3.2. Prior to the horse leaving the grounds either the show judge or management must verify the condition of the horse. Except for an injury that occurs during the show, the condition of the rider must be confirmed by a physician's written verification.
- 15.3.3.3** In the event a horse dies, or sustains an injury that prevents it from competing for the remainder of the season, and the rider registers a new combination, the shows ridden on the original horse will be counted to meet the five (5)-show requirement. The inability of the original horse to continue in competition must be certified, in writing, by a veterinarian.
- 15.3.4** The combination must be included on the Current Year Rating List published after September 1st.
- 15.3.5** Because this competition is based upon qualified horse and rider combinations, substitution of a horse or rider is not allowed.
- 15.3.5.1** If a horse that is part of a qualified combination has to be withdrawn from competition, and the rider is not part of another qualified combination the rider may enter another horse, but the new combination must ride in the Open division.
